When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

STANDARD.

London, 29th—The Cabinet has decided not to resign until they are defeated in the new Parliament. The Government believes that some members elected as Liberals will not support Gladstone, or will at least refrain from voting on a decisive question.

Gladstone's party are furious at this action on Lord Salisbury's part; and a very violent debate is expected when the new House opens, if the Conservatives do not change their tactics and challenge a vote.

Rome, 29th—The Pope's health has improved, and he had an hour's drive in the Vatican gardens to-day.

Genoa, 29th—Great preparations are being made for King Humbert's approaching visit to this city.

Constantinople, 29th—A special mission to Germany under Hober Pasha will shortly leave to express to Emperor William the regret of the Sultan that he cannot return the visit paid him three years ago, as the traditions of the Ottoman court forbid it. The mission will be considered as a return visit.

London, 29th—The whole European press, except that of France and Russia, approves the execution of the Bulgarian conspirators. Stambuloff continues to publish semi-official documents accusing the Russian Government of vile forgeries, through a Russian employee in Sofia.

The publication of these documents will certainly provoke furious attacks by the Russian papers, and will lead to trouble between the Pan-Slavists and the Czar.

The relations between Russia and Bulgaria are more strained than ever, and it is foreseen that, after the execution of the conspirators and the attacks of the Bulgarianpress, an arrangement of any kind will be impossible.

The *Times* makes very pessimistics forecasts, and says that the Bulgarian question will force Russia to abandon its temporising policy, and lead to the dreaded European war.

Milan, 29th—The Italian Radicals attribute the indecision and delay in the Royal visit to Genoa to German pressure, to avoid any "rapprochement" between France and Italy.

The *Secolo* and other papers attack the Government and the Triple Alliance furiously on this head. The Government organs indignantly reject the Radical conjectures as an unmerited insult to Germany; and say that if the King's visit has not been postponed, it should be, to show that the King and the Government would not yield to the pressure of the Radicals and the French press. Nevertheless, it is believed that the King will shortly leave for Genoa.

Paris, 29th.—It is thought that the French squadron will not go to Genoa, as the result would not be now what was expected; and it is feared that, in consequence of the polemic that has arisen, the appearance of French ships at Genoa would give rise to unpleasantness that might lead to very serious consequences.

Genoa, 29th—There is some excitement here owing to a French paper having said that the Genoese are not to be trusted.

The papers say that, in spite of this gratuitous insult, the French squadron will meet with the same hospitality and courtesy shown to the Italian squadron in France.

(To the "Prensa".)

Paris, 28th—The Radical Deputy Hubbard is organizing an opposition to the re-election of President Carnot in 1894. The Conservatives are in favour of a second term for Carnot, as they fear serious trouble should a new man be placed in the Presidential chair.

Lord Sherbrooke (the Rt. Honble. Robert Lowe) is dead. It is a great loss for the Liberal party.

The Gladstonians have lost a seat at Greenock, which reduces their majority to 40.

The British steamer Memphis has run ashore at Swansea.

Mr. Joseph Cowen of Newcastle objects to John Morley being in the new Cabinet, but is ready to accept a seat in it himself.

Lant and Wilson, manager and cashier of Reynolds and Gibson, cotton brokers of Liverpool, have confessed that they stole money from the firm.

The British East African Company announce from Uganda that King Mwanga has thrown over the French Catholics and joined the English Protestants, as the latter are stronger and better able to support him. The French papers deny the whole thing.

Dublin, 28th—At a meeting of the Parnellite party it was announced that no faction animosity would prevent its vote being cast for a really good Home Rule Bill for Ireland.

Sydney, 28th—Another civil war in Samoa is feared.

Constantinople 28th—The persecution of the reform party continues, as the Sultan is convinced that there is a plot brewing to dethrone him.

Amsterdam 28th—The Gumonn volcano on the largest of the Sanguir Islands is vomiting showers of stones that kill the natives in hundreds; and the lava carries everything before it. The crops are destroyed, and famine threatens the survivors.

WESTERN RAILWAY OF BUENOS AYRES.

In 1890 the Western Railway that had been the property of the Province of B. Ayres was acquired by the present B. Ayres Western Railway (Limited). It comprised in all abont 660 miles of road, and the Company disposed of some 320 miles to other companies, from whom it receives £144,480 net per annum. This left the Company with 338 miles of line forming a trunk line without branches, extending from the ports of La Plata, and B. Ayres to Trenquelauquen through some of the richest grain-growing districts of the province of B. Ayres.

The three portions of line parcelled off and for which the Western Railway receives an annual rent were as under:—

	Miles	Rent £
Lujan to Pergamino &c. to the Central Argentine..	202	88,520
Merlo to Saladillo to the Great Southern.....	94	45,320
Ringuelet to Ferrari, to the Ensenada Railway..	24	10,640
	320	144,480

The capital was fixed as follows:—

	£
Ordinary shares.....	2,500,000
Deferred do.....	1,000,000
Debentures 4 p. c....	1,000,000
Bonds of 1882-84....	3,950,000
Do. (held by Baring)	1,000,000
Total.....	9,450,000

The results for the year ending June 30th, 1891, shewed as follows:—

Earnings, main line...	485,340
Rent of branches.....	142,500
Total receipts....	627,840
Working expenses ...	251,800
Debenture interest....	297,260
Balance, profit...	78,780
Total.....	627,840

As regards the year ending June 30th 1892, the exact figures are not yet published, but they are estimated to turn out as follows:—

	June 1892. £	June 1891 £
Earnings	428,000	485,340
Rent of branches	144,500	142,500
Total receipts	572,500	627,840
Working-expenses	207,590	251,800
Debenture interest	310,440	297,260
Balance, profit....	54,470	78,780
Total.....	572,500	627,840

The balance in June, 1891, was not disposable, because £146,000 more capital had been expended than received, but this was probably afterwards covered by debentures. The balance in June, 1892, will suffice (after meeting all liabilities) to pay a dividend of 2 per cent on £2,500,000 ordinary shares, leaving the holders of deferred shares to hope for better times. The earnings of the main line in May, 1892, were £41,900, against £32,560 in May, 1891, an improvement of 28 per cent, which is enough to afford reasonable grounds for a very favorablo result in June, 1893.

SHIPPING DISASTERS.

The Bureau Véritas shews the number of casualties and of wrecks of the shipping of various flags in the year 1890. The percentage on the numbers of vessels under each flag shews as follows:—

Steamers.

	Casualties.	Total loss.
British.....	15·5	3·2
French.....	12·2	3·4
German.....	13·6	2·7
Italian.....	2·7	1·6
Spanish	2·2	0·8
Swedish.....	10·0	2·5
Danish	12·9	2·5
Austrian	10·9	3·6
American....	21.2	3·2
Medium	11·8	2·7

It is very surprising that the British and American flags should have the heaviest ratios, as if English and American sailors were less careful or expert than those of other nations. Perhaps the system of Marine Insurance has something to do with it. Mr. Chamberlain mentioned a captain—a well-known shipowner—who had a particular nickname on the Exchange-flags of Liverpool because 41 vessels that he had owned were lost at sea.

The very small ratio of casualties in Italian and Spanish shipping has long attracted notice, and has been ascribed to a sea-faring custom (at least in Italy) of giving every sailor a share in the ship.

The returns as regards sailing-vessels shew as follows:—

	Casualties.	Total loss.
British.....	35·8	2·2
French.....	26·6	2·2
German.....	33·0	1·9
Italian.....	6·8	0·7
Spanish.....	10·7	1·3
Swedish	3·2	0·6
Norwegian...	3·4	2·2
Danish	24·1	0·9
American....	18·4	1·1
Medium	18·0	1·5

Here we find that the average of casualties to sailing-vessels is much greater than to steamers, but that wrecks or total loss in only one-half.

PROVINCIAL NEWS.

A dreadful affair is reported from Santiago del Estero. It appears that two brothers named Coronel were murdered by a certain Gomez. Very few particulars have been received so far. It seems that Gomez was in his shop at Choya when the brothers Coronel entered. A quarrel ensued, but whether it was begun by the brothers or by Gomez is not known. Gomez put five revolver-bullets into Belisana Coronel and then, taking up a Remington killed the other brother. Belisario soon sucumbed to his wounds. The *Pais* of Santiago states that a few days ago a fly-sheet was published recalling the circumstances of the murder of Arrizola. The sheet was signed by the eldest son of the murdered man. Now it appears that Arrizola was murdered by the Coronels, who were much excited by the publication and offered to produce the "warrant" they had received for the murder of the man in question. Gomez was in some way connected with the publication, and on him the Coronels determined to avenge their supposed wrongs. This version, however, is contradicted and the true particulars of the case will only be known when the affair is brought before the courts. The whole business, however, may be hushed up, as Gomez is said to be highly connected. The circumstances of Arrizola's death are well known. He was one of the most ardent enemies of the Juarez Celman regime. He was a man of much influence and good standing. His enemies decided to do away with him, and Belisario Coronel was entrusted with the sanguinary task. Arrizola was taking coffee with a friend in a Café in Choya, when Coronel entered and ordered him to follow him to the police-station. Arrizola immediately obeyed and left the Café with his usual smile on his face. As he issued from the Café he received a sabre blow on the head and fell down insensible. Coronel and a few soldiers then bayoneted him and put a Remington bullet into him. Then, thinking he was dead they quietly dispersed. Arrizola, however, regained consiousness and lived for a few hours after. He learned all the circumstances of the outrage and then expired. Coronel was arrested, sent to prison, and a few days afterwards released. Poor South America!

Influenza appears to be decimating the ranks of the Rosario millionaires. The latest victim is Mr. Lazaro Costa. The epidemic has carried off the following plutocrats:—

Martin Erramuspe wotrh	one million		$
Jacobo Larrechea	" 6	"	"
Camilo Aldao	" 2½	"	"
Mariano Alvarado	" 2½	"	"
Antonio Zubelzu	" 12	"	"
Lazaro Costa	" 3	"	"

This is quite alarming for wealthy people.

A telegram received from Santa Fé yesterday reports a sanguinary affair there. Two gentlemen of goodstanding quarreled and soon proceeded to lay violent hands on each other. Finally one of the combatants whipped out a dagger and inflicted a dangerous wound on his opponent. This affair appears to have created a great sensation in Santa Fe.

GERMANY AND RUSSIA.

(From the St. James's Gazette")

To say that there is "wailing and gnashing of teeth" in Berlin would be to convey most inadequately the feelings of wrath that prevail in the Imperial camp at having been outwitted and generally confused by the artfully contrived Tartaro-Gallic conspiracy. To lure the Emperor to Kiel in order to assist the boom in Russian and French stocks, so as to pave the way, in the first case for a new loan, and in the other for a conversion scheme, was a master stroke of cunning diplomacy worthy of a Talleyrand or Metternich. How the secret was preserved, in these days of rapid communication, is a mystery which it would be impossible to unravel. How was it that no warning of the carefully planned trick reached Berlin in time for counteraction? "Tis passing strange" that the German Emperor should be made the catspaw for a Bourse manœuvre.

For the good of his people and for the peace of Europe in general, the Emperor has borne with the ruffianly treatment to which he was subjected in St. Petersburg, when the Czar so far forgot his duties to his guest as to hold him up to ridicule and contempt in sight and hearing of the Court and of the representatives of all the nations in Europe. For similar reasons of State, the Emperor decided, furthermore, to ignore the strongly implied insult which the Czar inflicted upon him by delaying the obligatory return visit from year to year. But, apart from these and other numerous slights of a personal character, there are scores of instances in which Russia has acted in an arbitrary, high-handed manner towards its neighbour; in fact, short of "throwing his armies across the frontier and pulverizing Germany" (as he once actually threatened to do) the Czar has treated his neighbour as an enemy.

Berlin can be reached from various points on the north coast within the space of four hours, and the Czar had the choice of at least three routes, each of which could have been guarded right along the line, in quite as efficient a manner as the Russian railways. The Czar has almost every year entrusted his august person to the care of the German railway authorities on his way from Copenhagen to the Crimea.

At first the Emperor insisted that the visit, if it were paid at all, should take place at Berlin or Potsdam. Within a few days of the suggested time, however, other counsels prevailed, and thus the aforesaid scheme was consummated.

At present there is every indication that the relations between the two northern empires will become even more strained than they have been—and small wonder. The Czar has dexterously managed "to do the civil thing" towards Germany and simultaneously to appease the French—his bankers. But the question is, Will the boom last? Will it last long enough to enable the Russian loan to be floated? The answer is likely to be in the negative. At any rate, the German group of financiers is not likely to participate in the bargain. They dare not do so without the sanction of the Imperial Government.

Taking these facts into consideration, it may, after all, turn out that the main object of the plot has been defeated; for the French, with all their Russophil predilections, will scarcely stand the racket of another Russian loan single-handed—in fact, the Paris Rothschilds have refused point-blank their good and necessary offices, without the aid of the German bankers.

ARGENTINA.

(From the "Statist.")

The agents of the Argentine 1886 and Funding Loans have no knowledge of the declaration said to have been made by Señor Saenz Peña, the President-elect of the Argentine Republic, to the effect that there ought to be a temporary reduction in the interest on the debt to 2 per cent., the two loans referred to being included. The President-elect is not in any way hurried to make a settlement. He will come into office in the middle of October; then he will choose his Ministers, and if he is at all competent, he will take time to study the situation. In all probablity he will not be in a position to frame a scheme for submission to the representatives of the bondholders until the spring or summer of next year. It would be different, of course, if the bondholders had bestirred themselves; but as they are content to let matters go on as they are, why should the President-elect hasten the definite settlement?

Putting aside the views, or alleged views, of the President-elect, it may be asked, Is it likely that the interest of the 1886 and the Funding Loans will be reduced?

For ourselves, we have never been able to see the justice of favouring the '86 Loan at the expense of all the other loans; but the Rothschild Committee took a different view, and we may reasonably assume that if Messrs. Morgan and Co consent to finance the Argentine Republic they will insist upon the '86 Loan, and of course, the Funding Loan, being continued in their privileged position. If that happens, so much the worse for all the other loans, and so much the better for the holders of those two particular loans.

The experience of this week confirms the view we recently took when commenting upon the improvement in the economic condition of the Argentine Republic, viz., that it is too soon to form any opinion as to the value of the several Argentine Loans—the National, the Provincial, the Municipal, and the Cédulas. As the National Government is the supreme authority in the Republic, and has a first charge upon its taxable wealth, the National Loans ought to be of greater value than the others. But the question arises whether the National Government may not desire to make changes in the Constitution, and to assist the Provinces; and whether it may not, therefore, assume the liabilities of the Provinces. And further, we have to bear in mind that the National Cedulas are guaranteed by the National Government, and that in reality, therefore, they are a national liability. Owing to these doubts it is impossible to say at present whether the National Loans really are of greater value than the Provincial or the Cedulas; and when we come to the National Loans themselves, we are met by the strange anomaly that the Funding Loan, which consists of the three years' coupons that were paid in paper, has also a privileged position. Even amongst the National Loans, therefore, it is probable that there is a distinction to be drawn; two of them are of much greater value than the remainder.

REVD. THOMAS H. STOCKTON

We regret to announce the death which took place yesterday at mid-day, of this esteemed gentleman, who was in charge of the Methodist Episcopal church here. The Rev. Thomas Stockton was born in Philadelphia, where his father owned a large manufactory of dental instruments. He was brought up in the business, which he subsequently abandoned to study for the church. The Revd. gentleman was distinguished for his literary ability and was a near relation of the well-known American writer Frank H. Stockton. He came to this country in 1884 to take charge of the mission in lieu of the Revd. Dr. Thompson, who took over the Spanish division. He proved himself a model minister, distinguishing himself by his zeal and earnestness. He founded the North American School and never lost an opportunity of making himself useful to his numerous community. We sincerely condole with his bereaved wife and family. He was only 50 years of age.

It may be interesting to our readers to know that the first clergyman who came out for the American church was the Revd. Mr. Parvin, who landed here in 1824. He was followed by the Revd. Dr. Goodfellow, 1860. Then came the Revd. Mr. Jackson, 1883. The church of the community stands in Calle Corrientes. It was erected in 1870, by special permission of the Government, as it was designed with tower, there being a law at that time against the erection of Protestant churches with towers

ALEXANDER KINCAID.

It is with the deepest regret that we have to announce the unexpected demise of this esteemed and popular gentleman in both native and English circles. Especially were his high qualities and sterling character appreciated by his comrades in the engineering community, in which sphere his scientific attainments and natural amiability stood out in bold relief. Mr. Kincaid started in life as a marine engineer; but he soon abandoned this in favour of railway works, with which he continued in close connection down to the date of his death. His first important post was on the St. Petersburgh and Moscow railway, a position which he only resigned on the transference of that line to a French company. In the year 1868 he came out to the River Plate and for some years was the manager of Manton's dry dock in Colonia. He subsequently was occupied in connection with the starting of a line of steamships between Glasgow and Newfoundland; after which he was selected by Sir John Arnot for the delicate post of superintendent to the docks which Sir John established at West Passage, Cork. This post he only relinquished on the abandonment of this enterprise on acconnt of political troubles. He returned to the Plate in 1884, and was soon entrusted with the responsible post of Locomotive Superintendent of the Central Entreriano Railway during the critical period of its construction. Of late his services had been engaged by the Rio Negro Salt Co. for the building of the proposed railway from the salt lakes to the port of San Blas, and whilst preparing for his journey South he was attacked by a severe fever which has carried him to a premature grave; but it was only two days ago that his illness assumed a dangerous character. In all the numerous positions he occupied his kindly heart, cheerful ways and straightforwardness invariably endeared him alike to both those whom he served and the humble individuals who served under him. His loss will be deeply felt by a large and varied circle of friends. Of him may well be said

"His life was gentle; and the elements
So mixed in him that nature might stand up,
And say to all the world—This was a Man."

THE LATE DR LAWRIE.

With profound regret we announce the death of Dr. T. D. Lawrie, one of the oldest, most respected and most popular of English residents. Dr. Lawrie, who was 60 years of age, had been hale, hearty and active until about twelve months ago, when he had a sharp attack of the heart, from which he never properly recovered. In the beginning of last June he had another severe attack, the symptoms this time extending to his mental faculties. It was then seen that his life was threatened, and although his physical health had slightly recovered, it was only for a short time. A relapse occurred, and on Tuesday night it was evident that he was dying. After a long period of unconsciousness, he rallied for a moment yesterday morning sufficiently to give a smile of recognition to those around his bedside, and then departed this life in peace, a few minutes before 6 a. m.

Dr. Thomas Dick Lawrie, of Edinburgh, was born May 4, 1832. Having taken his degree as M. D., he left England about 1854 as medical officer to an English Mining Company in Moro Velho, Brazil. He came to Montevideo, May 1, 1861, to take charge of the British Hospital, which post he retained until about 1872, when he set up in private practice. On June 24, 1863, he married the eldest daughter of Mr. Edward H. Gowland, one of the oldest English settlers in the River Plate, and founder of the large family bearing his name. During the visitation of cholera in 1887-8, Dr. Lawrie was named Doctor of Health in conjunction with Dr. Regules, and worked heroically, never refusing a call, although at one time seriously ill himself. He has also been visiting physician to the British Hospital, and has several times officiated as Church Trustee and been prominent in all charitable and social movements.

His was one of those genial, kindly and charitable natures which disarm enmity and suffuse cheerfulness on every side. He had also a great gift of hospitality, and in more prosperous times had kept open house, his reunions being the pleasantest in Monte video. His death will be felt with keen regret by all who knew him, and few will go to the grave with warmer friends, or fewer enemies.

Dr. Lawrie leaves four sons and three daughters, all well-known in the community amongst whom they were born and bred, and to them and to their sorrowing mother, we tender, in the name of our readers, deepest regret and heartfelt sympathy in this severe bereavement, a loss which is shared with them by the whole colony.

Note—The above is condensed from the *Montevideo Times*.

THE ULSTER CONVENTION

REPLY FROM HOME RULERS

Fellow Citizens,—In the resolutions defining the objects of your meeting you appeal to your "fellow-citizens who have hitherto been in favour of a separate Parliament to abandon a demand which hopelessly divides Irishmen, and to unite with us under the Imperial Legislature in developing the resources and furthering the best interests of our common country." We hopefully recognise in this appeal a disposition to abandon those unconstitutional incitements to violent resistance to the will of the Imperial Legislature, which many amongst you, in view of the probable passing of a Home Rule Bill, have openly advocated. We therefore heartily accept your invitation to meet you upon the constitutional and rational ground of mutual explanation and discussion. You are mistaken in your opinion that Irishmen will continue to be "hopelessly divided" after the concession of Home Rule: fears of a like nature were entertained previous to the passing of Catholic Emancipation, the Irish Land Bills, and other similar Acts of the Imperial Parliament. Whereas, when those measures became law, they were accepted by all parties, and their repeal was never afterwards seriously called for by any one.

Universal experience confirms our judgment that the most effectual means of strengthening the bonds which bind together this great Empire and the United Kingdom will be found, as far as Ireland is concerned, in remitting the control of her internal affairs to her freely-elected representatives in a native Parliament. Hence we urge you to join us in our patriotic efforts to bring about the only stable union which is consistent with the self-respect and self-interests of the English and Irish peoples.

Your loud proclamation that violence and bloodshed will follow the passing of a Home Rule Bill will, we fear, be interpreted by many of your followers as an instrution and encouragement to plunge the country into disorder and riot. We remind you that a quarrel can only take place when there are two contestants. As for ourselves, we hold out to you the olive branch of peace and goodwill, and express our firm determination to abstain from all cause or occasion of offence to you.

We are only providing the best protection for our own liberties when we express our firm determination jealously to guard the civil and religious liberties of even the smallest section of our people. For the patriotic and sacred duty we ask your aid and co-operation; that, ending the feuds of centuries, we may unitedly address ourselves to the noble work of building up a happy, prosperous, and contented nation. We entirely agree with you in protesting against "the great question being treated as a side issue in the impending electoral struggle," and shall unite with you in endeavouring to place before the electorate of Great Britain the question of Irish Home Rule as the question of the hour. We confidently appeal to the people of England, of Scotland, and of Wales to remit the affairs of this island to the control of its own people, and set free the Imperial Legislature for the more effectual control over that great Empire of which it is our desire and purpose to remain an "integral part."—*European Mails.*

EAST ARGENTINE RAILWAY.

The directors report as follows for the year ended 3rd December last:—The traffic receipts of the railway amount to £23,700, against £38,800 in 1890, leaving a loss in 1801 of £2,306, compared with a profit of £357 in 1890. The receipts per train mile were 5s in 1891 as compared with 6s 6d in 1890. The general manager (Mr. Oliver Budge) in his report states that this line, in common with all other Argentine railways, has suffered very severely by the falling off in its receipts, in consequence of the general causes of depression that ruled all over the country during the past year. One of these causes is the gold premium, which in 1891 fluctuated from 201 to 361 per cent., and, as the company's accounts have to be reduced to a gold basis, the receipts, when converted into gold, give a very poor result. The general manager adds that there is one cheering feature in last year's working, and that is that the line has at last commenced to develop the surrounding country, and more activity in agriculture has been shown during the last twelve months than at any previous time of the company's existence. Considerable damage was done to the line by heavy rains in August last, and the traffic had to be suspended for seven days; but Mr. Budge is now able to report that the line is in very good order, and that the new and more powerful locomotives give great satisfaction and, with the new wagons, will largely economise the working expenses in the future. The steamers belonging to the company have done well, considering the suspension of the carriage of materials for the Argentine North Eastern Railway and the impoverished state of trade in the Upper Uruguay. The accounts for the guaranteed interest for the year 1891 have been handed in to the Government by the company's agents in the River Plate, and payment of the same in bonds of the Funding Loan is expected in due course. The permanent way and works, as well as the rolling stock, are in good condition; and various additions to and improvements in the line have been made during the year, as shown in the manager's report. The account with the Government has required a great deal of the directors' attention during the year, and they have been unable to obtain payment of the balance of £17,700, being arrears of the guarantees to the 31st December, 1889. They have received from the Government £64,600 in bonds of the new Funding Loan, in respect of the guarantee for 1890, these bonds are valued and credited to the Government at £42,000, being 65 per cent. of their par value, the nominal price of the bonds, at the date of their receipt. The directors have protested against payment being made otherwise than in cash, or in cash value, and have also claimed to be paid the loss resulting from the action of the Government. Stockholders will see that until payment is made in respect of the guarantee for 1891, the directors will not be in a position to pay a dividend on the ordinary stock. The interest due on the 1st inst. on the company's 6 per cent. debenture stock was duly paid on that date, and the temporary loan from the company's bankers, which appears in the balance-sheet, has been paid off in the current year.

European Mails.

RAILWAY ITEMS.

The Highland Scot Canning Co. have asked Government to allow the Ensenada Railway to build a siding three hundred metres long between Venezuela Station and the extension of Calle Moreno, with a view to facilitate the loading of the products of the meat-factory. We may state that the Inspector-General has endorsed this petition and Government has granted it.

A Rio exchange says:—

The Paulista company is now threatening to suspend traffic because of a scarcity of coal. The prejudices which will be caused by such a suspension will be incalculable. The English company must certainly push forward its work no matter what the expense may be.

The ordinary general meeting of the North-West Argentine Railway Company was held on June 23rd, at the City Terminus Hotel, under the presidency of Mr. Edward Woods. In moving the adoption of the report, the Chairman expressed regret at the outcome of the past year's working. A considerable improvement was, however, to be noted in the working of the line, for, while in 1890 the comparative statement showed a loss of $155,594, the net profit in 1891 had been $41,764. There had recently been a steady decline in the gold premium, and they hoped that the net receipts would soon suffice to pay the debenture interest, and ultimately that some dividend would be paid to the shareholders. For the first 18 weeks of the current year the gross receipts had been $185,353, or, reduced to gold currency, £10,395, compared with $102,648, or £6,016, in the corresponding period of 1891. He afterwards alluded to the increased area of land under sugar cultivation, and stated that the rice cultivation had given extraordinary results. Tobacco was being planted on the southern portion of the line, and an experiment in coffee planting had also been made. Mr. W. P. Sutherland seconded the motion, which was adopted, it being also resolved to place the sum of £20,000, which was due to the company by the contractor, to the debit of the capital account.

The opening of the San Cristobal and Tucuman Railway, which has been built by the Fives-Lille Company, takes place to-morrow in Tucuman. The ceremony will be of an official character, as the Governor and other dignitaries will be present. The railway in question is of the narrow-gauge and was built under a Government guarantee on a kilometric cost of something like $30,000.

EDITOR'S TABLE.

The Bus will bust. The latest news is that two new English papers are about to appear, instead of one. Siamese Twins we suppose. The more the merrier.

Pale Death is busy in the English-speaking community. The deaths of the Rev. Mr. Stockton, Dr. Lawrie of Montevideo, and Mr. Alexander Kincaid have caused sincere regret, and we offer our condolence to the respective families of the lamented gentlemen.

The Deputies worked up to quorum point yesterday, and began with a demand from the Executive for more soft cash: 100,000$ for infantry barracks. Mr. Vucasovitch's proposal for life-saving stations was presented. The reform of the Moratorio clause in the Commercial Code was approved to the effect that no Moratorium can exceed one year from the provisional suspension, not from the time when it comes before the Court. The Moratorium can be extended twice consecutively, on the legal conditions, if the extension of time be agreed to by the number of creditors mentioned in Article 1590 of the Commercial Code.

That some people are still keeping up full steam in the extravagance line is evidenced by the advertizement in another column for a female cook at $150 per month!! The best French "chef" in town would be glad to accept such wages. Perhaps there is a misprint, and the figure should have been $150 for *six* months. Our hair stands on end at such preposterous wages. The cooks will go off their heads, and all will have to cook their own "puchero."

We are requested to state that, owing to the doubtful weather, it has been decided by the Committee to suspend the Matinee which was announced to take place to-morrow in Belgrano for the benefit of the families of the unfortunate crew of the Rosales. The concert will probably take place on the first Sunday in August.

We call attention to the programme of the Rovers' Polo Club entertainment at Quilmes to-night, in aid of the funds of the Anglican Church building fund. The Municipal Hall is one of the best in the province, and the programme, notwithstanding disappointments from two fair 'hijas del pais' owing to change in date, is excellent. Both 'Ingleses' and 'Quilmeros' will be there in force, and of good churchmen and lovers of music from town not a few. Quilmes is noted for its hospitality, and many are the Saturday to Monday invitations out. Concert tickets (available as pass by special return train to town, leaving at 11.15 p.m) price $3, not $1, to be obtained at Grant's.

We return our best thanks for the kind invitation to attend the grand Swiss National Fete to-morrow and Monday. The programme is splendid. The rifle-shooting will be on Sunday, and the concert, ball and gymnastics on Monday, in the Unione e Benevolenza Hall in Calle Cangallo.

It has been arranged by the three Rowing Clubs with their head-quarters at the Tigre to hold a joint regatta in aid of the widows and orphans of the seamen lost in the Rosales, and to add to the fund being raised for the purchase of a new ship. As the Argentine Navy has always shewn itself most willing to assist the Clubs in any way in its power, it is hoped that all those who enjoy boating at the Tigre will try and be present, and that the rowing members of the Clubs will if possible take part in the races. Tickets price $1 each can be obtained by applying to the Regatta Committee, 650 Piedad. In another section we publish the Programme and a notice to members of the Tigre Boat Club.

Cavalleria Rusticana to-night at the National Theatre, and dear, old Trovatore to-morrow. Tenor Grani is great as Manrico, Sta. Nuzio will delight us as Leonora and Sa. Steinbach as Azucena.

An interesting correspondence has been going on between our energetic Post Master General, Dr. Carles, and General Mitre, in reference to San Martin's portrait. It appears there is to be a new issue of stamps, one class of which is to bear San Martin's portrait, and Dr. Carles is naturally anxious to secure the best portrait. General Mitre says that the best portrait is the original fac-simile in his Life of San Martin.

We have received a letter from Tala, in Entre-Rios, reporting a terrible state of things there. There is no security whatever for property, and the most daring robberies are perpetrated in broad daylight. Unfortunately, this lamentable state of things prevails in other provinces as well as Entre-Rios.

House property in Montevideo is going dog wards. A splendid house in the centre of the own, which cost $113,000, was sold a few days ago for $60,000; and there were not half a dozen people at the auction.

The way in which shinplasters melt in San Luis is wonderful. The National Council of Education recently sent $70,000 up there to pay the school teachers two years' arrears of salary; the local Council say they only received $7,000; and the unfortunate teachers swear that they have only received one months' salary, instead of two years. Here's a pretty sum in the rule of three and thumb. The *Prensa's* correspondent wires it from the "Valiente Puntano" province.

Only four days now remain to look after over-valuation of city property for the Contribucion Directa tax; so house-owners should look sharp.

The Yacht Club Argentina has now got "personeria juridica," and can fly the National flag. We hope to see an Argentine-built yacht appear at Cowes or Kingstown before we join the majority.

The lynching of a few bill-stickers, "pour encourager les autres", is imperatively called for. These audacious gentry do not now respect even private houses, and have become a downright nuisance.

In the La Plata Senate, the Committee have approved a new Bill dealing with the liberty of the press in the province. Such Bills always mean in these regions a curtailment of the liberty of the Fourth Estate.

The English Literary Society begin their entertainment season on Wednesday next. Box and Cox by distinguished amateurs, and with an amateur orchestra of the first water. The scene of action will be the La France Hall. The Committee request us to say that, as the said Hall is rather a small one, they can only give one lady's ticket to each member. Last year, when the old system of giving ladies' tickets "ad libitum" prevailed, the Committee were providentially saved, by a thundering downpour of rain, from the ire of over two hundred ladies that held tickets but were kept at home by Jupiter Pluvius; yet the Hall was full. This year the Committee are afraid to trust J. P. to do them the same favour, so they are most reluctantly compelled to limit the number of ladies' tickets, and hope to be forgiven by the fair, be they maids, wives, or widows on the look out for Number Two.

Dame Rumour has gone to Montevideo, as her reputation here is so hopelessly gone that she can do no profitable business. For some nights past the troops and police in what, long ago, we used to call affectionally "the sister city," have been confined under arms to their quarters. "Uneasy lies the head that wears a crown;" and that under a President's hat is no easier, when the question at issue is how to "raise the wind" at any cost. Why not "scale down" the scaled-down" Confiscation Bonds? The holders are used to it by this time.

Yesterday was another fat twenty-four hours for gas companies. The day was so damp, dull, dark and dismal that there was a Black-Hole-of-Calcutta feeling in every office in town, and gas was required from an early hour. The Argentine Wiggins declares that the present meteorological conditions mean Noah's Ark weather in September, and a summer as dry as Sahara. We hope the A. W. will turn out as bad a prophet as his Canadian 'tocayo'.

Mr. Adolfo Negrotto's seaside College at Mar del Plata, though such a short time established, is already beginning to make its mark under the able direction of Señor Liminano, an educationist of great experience. One of the pupils, Master Soho, passed an unusually brilliant examination on entering the National College this week.

A sentimental U. S. editor says: "It is comforting to know that one eye watches fondly for our coming, and looks brighter when we come". A contemporary of his is grieved to learn that his brother of the quill has a wife with only one eye.

In reference to the accident to Mr. Morgan we have received the following polite note from the pony that carried him:—

Dear STANDARD.

I should like to correct a statement made in your issue of this morning, with reference to Mr. Morgan's accident. The accident did not occur, as you say, during a Polo match, but during practice. I, the pony, slightly "pecking", Mr. Morgan fell off and broke his collar bone, an accident that might have occurred hacking along the roads, or anywhere else.

Yours truly
The Pony.

We are requested to announce that the services to-morrow throughout the day, at the Anglican Church, Quilmes, will be taken by the Revd. Canon Pinchard, Vicar of Holy Trinity Church, Lomas.

A new engine constructed for the Central of New Jersey Railroad company broke all records of high speed on February 26th, by running 92 miles per hour. The engine is a Baldwin compound. At this wonderful speed a train could leave New York city and arrive in Buenos Aires in 2 days and 15 hours, as soon as The Three Americas line is completed.

It will be worth the football enthusiast's while to invest

REAL COMPANHIA VINICOLA DO NORTE DE PORTUGAL.
OPORTO.
Constituted with a capital of 6,000,000 rs. with a view to developing and sustaining the credit of Portuguese Wines by assuring patrons of these vintages sound and genuine wines. The Company has a subvention from the Portuguese Government and is the "only one" entitled to style itself ROYAL.
Besides numerous advantages the Company offers the following guarantees of the purity of its productions:—
1st—By its contract with Portuguese Government it is obliged to use exclusively in manufacture the juice of the grape.
2nd—Its cellars are under supervision of the vintners' League which issues a certificate for each consignment effected.
Connoisseurs should ask for the
VINICOLA MARK.

ON 'CHANGE.
Friday, July 29th.

The gold market opened very weak this morning and looked at one moment as if bound for $52 to the ounce, but as the day grew, and the requirements of the liquidation became more pressing, a slight reaction took place and the premium closed comparatively hard. The business of the morning, according to the figures on the black-board, did not amount to much, but a good deal was done outside. Twelve thousand ounces changed hands for cash; the price opened at $52.20 and closed at 52.50, say 225.58 % premium. Sovereigns were dull, closing at $16.30, say 223.40 % premium. As the market closed, it looked as if the settlement would wind up at $53 to the ounce to-morrow.

Patriotic Bonds were steady at 71.80 to 71.90 for cash and 72¼ for the end of next month. Internal bonds were fairly active and firm. About three thousand were sold; the price for cash rose to 67.40, fell to 67, and closed at 67.10; the price for the end of August rose to 67.70 and closed at 67.20.

Shares of the Nueva Banco Italiano were quoted at 60. Municipal Lottery Bonds opened at 59 but could not hold on, closing at 58. Catalinas were very dull at 10 for cash and 10.10 for the middle of next month. La Plata Cedulas made a faint attempt to appear firm, collapsed and closed heavy at 29.20.

Both exchange and discounts ruled more or less the same as yesterday.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Ounces—

Aug. 30...P 20,000 at 29.30

Mr. Fishback, Chargé d'Affaires of the United States Legation, has been named National Commissioner of the Chicago Exhibition in the Argentine Republic, in lieu of Mr. Bertholette, who left these shores some time ago.

Mr. Anderson has informed the National Government that in view of his approaching departure for Europe he has conferred powers on Mr. Thomas B. Fowler to represent the Buenos Ayres Water Supply and Drainage Company, Limited, during his absence. He has also left powers with Messrs. Samuel B. Hale and Co. to make "ad referendum" settlements with the Government should any difficulties arise in the questions pending about the repeal of the lease of the City Improvement Works.

The Postmaster-General, Dr. Carlés, has submitted to the National Government an exhaustive plan of reform of the present postal regulations, specially drawn up with a view to suit the requirements of the public.

The National Government has given instructions to the Land and Colonies Office to draw up a contract with Dr. Alejo Peyret to write and publish the history of colonization in the Argentine Republic. The matter is to be treated "ab ovo."

Advices from La Plata announce that a great bonfire of several millions of Cedulas will take place at the Mortgage Bank on the 4th prox. All the amounts sent in for sinking funds and cancelling mortgages last quarter will be burnt.

The report of the directors of the Currumalan Estancia was given round yesterday, and as the property is one of the greatest and largest in this country and the enterprise of such magnitude, the paper cannot fail to interest the whole of this market, and also a very wide circle of friends in London; the report is for the year ending 31st March 1892, which the Directors consider has been a good year, the haciendas having given good increase and the colonies a splendid harvest. The Estancia owes in England 1,000,000£ sterling on which only 22,800£ has been paid owing to the high price of gold, but the gains on this estancia, to judge by this report, must be enormous, since the earnings for the year, without taking into account the mills or the colonies, give a surplus over expenses of $816,487.47%. The sheep on the estancia give an increase of 84½% which, however, has been reduced to 73% owing to losses caused by Bichilla. They sold durnes the year 10,000 sheep 'al corte' and 14,300 capons, which gave $122,412.10%; the wools of the estancia were sold at the highest figure. The directors have ordered the purchase of several lots of fine rams and are importing from Europe 50 thoroughbred rams. The number of sheep on the estancia is 257,094, the number of cows 43,637, mares 16,987, which stock is valued at $3,268,201.50%.

The great fogs that prevail every morning make the navigation of the river so difficult that few vessels can come up. The German steamer Frankfort, from Antwerp, with 43 passengers, came in, and the German steamer San Nicolas, from Hamburg, is expected; the French steamer Pampa, from Havre, has entered the Darsena. But the water is very low at the Boca Channel, and several steamers are at anchor in the outer-roads waiting to come in.

The statement which we published yesterday respecting the Port of La Plata has caused very great attention in shipping circles, and it is likely we shall hear more on the subject. The President of the Department of Engineers in La Plata, Sr. Maschwitz, is an active good man and up to the mark, and whatever he says about the Port of La Plata the shipping public trust to. We note with much pleasure that the shipping trade of the Port of La Plata is steadily increasing, and the shipment of cereals in large English steamers from the La Plata dock is now the great business of the day down there.

Mr. Carroll, of London, who has arrived up from Montevideo, was welcomed warmly by all his old friends in the Plate.

The Lamport and Holt steamer Dryden, which cleared yesterday, took £40,000 in gold.

The day was so dark on 'Change that they had the gas lighting all day. The fog in town was of the London stamp, still everyone says that it is most healthy weather. As regards the camps and colonies nothing could be more favourable than the present close, damp, sticky weather: the grasses are growing splendidly and the crops coming up in all directions.

On the dark black-board to-day the flattest stock was the Provincial Cedulas dropping away day by day. People naturally ask when will bottom be touched.

most of the Cedula people think abou, 20 is bottom price, but there are partiet who say that when the new reforms come in force they will drop much lower.

There was great talk on'Change about a paragraph in the *Diario* respecting protested bills. No one seemed to know the names of the parties concerned.

Speculation in Emprestitos gives life to the Bolsa. All the moneyed people are in the stock, which is the only bonafide speculation stock at present in the market. Some of the large holders of the 1891 Loan say that the next amortization will be over 75, as the holders will not accept that price. The 1892 Loan is firm and in strong demand, and there is a healthy rumour in the market that, as the issue of this stock is most limited, the Government medidates taking it all up before the new Government comes in. Of course, if there is any truth in this, these bonds will very soon be at par.

Some very large purchases of Provincial Mortgage Bank Bonos are reported, which stiffened up the price of that most slippery stock.

The sale of some shares of the Nuevo Banco Italiano at 40 per cent discount attracts notice, as the Bank has only just declared a handsome dividend to its shareholders.

On Monday the Caja de Conversion pays to the Banco de la Nacion three millions new issue to cover the cost of the Emprestito bonds, whilst the bank has to pay the subscribers to the new bank on that date.

The news which was whispered yesterday on'Change about reducing the capital of the Banco Nacion to 25 millions was to-day the talk of the whole hall, and seems to have good foundation. The subscription to the shares is to be re-opened, and from what we hear, with every probability of being covered in its entirety.

Good news from the Venado Tuerto; great rains out there, and all the farmers and chacreros in good spirits, as the rain was very badly wanted out there, and the colonists were beginning to be frightened at the drought.

The latest news from Rio Grande is much more peaceable, and there seems no probability that the Orientales will have to fight this time for the protection of their frontier.

"The Indian Agricultural Department has issued its final reports upon the year's wheat crops in the Bombay Presidency and the Punjab. For the Bombay Presidency, including both British districts and Native States, the acreage under wheat in 1891-2 is returned at 2,620,000 acres, which compares with s,864,400 acres in 1890-1, while the total out-turn is placed at 543,500 tons, as compared with 750,200 tons. These figures, however, we are told, are at the best not more than approximately correct, even for the British districts, while for the Native States they are mere estimates In the Punjab the area under wheat this year is set down at 6,223,600 acres, and the yield at 1,392,400 tons, as against 7,074,000 acres and 2,071,200 tons in 1890-1. This year's yield is the lowest for the last seven years, with the one exception of 1886-7, when the out-turn was 1,361,900 tons."

Our colleague *Sud America* announced to-day that agents had arrived from Brazil to buy 5000 novillos for Rio. These agents intend buying large numbers of cattle all the year round.

Cheques of the Provincial Bank fluctuated at 40% discount to-day. Bonos of the La Plata Mortgage Bank were in demand at 183¾ discount.

Telegrams announce that rain was general in the Southern districts yesterday and to-day.

The gold market ruled firm at the second ring: the price of ounces opened at 52.60 and closed at 52.80, say 224.41 o|o premium. Sovereigns closed at $16.40, say 225.38 o|o premium. The requirements of the settlement put up the premium this evening; some parties were busy spreading alarming political rumors, but nobody attached any importance to these reports. Patriotic and Internal Bonds were stationary. La Plata Cedulas were very weak.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

Ounces—
July 30 .... 12,600 at 52.60-70-80.

Sovereigns—
July 30 .... £1822 at 16.35-37-36-40

Patriotic Bonds—
July 30 .... 91,900 at 71.80-60-70-60
Aug 6 ..... 13,000 at 71.70.

Internal Bonds 1892—
July 30 .... 62 000 at 67-66.80-80-90
Aug 31 .... 20,000 at 67.00.

Municipal Lottery—
July 30 .... 12.300 at 58.00.

Catalinas Moles—
July 30 .... 1,100 at 9.90.

Provincial Hypothecary Cedulas—
July 30 ..K 20,000 at 29.10-a0
July 30 ...M 10,000 at 29.20-29-29.10 20.

July 30 ..L 2,000 at 29.20-00.
Aug 15 ..L 10,000 at 29.10-00.
July 30 ..N 77,000 at 29.20 10.
July 30 ..O 90,500 at 29.20-29-29-20 10.
July 30 ..P 24,000 at 29.20-10.

Government has approved the contract made by the Land and Colonies Office with Dn. Angel Beron for the sale of 10,000 hectares in Misiones for $32,000.

Mr. D. Richards, mining engineer, left yesterday to take the Iberia in Montevideo on the 30th for Europe. He has made a thorough survey of the mineral resources of the Chubut territory, and takes valuable samples and equally valuable concessions to England, where he hopes to interest the mining public in his important venture.

Referring to a paragraph in *La Nacion* of Tuesday, and in our columns of yesterday, respecting the British Vice-Consulate at La Plata, we are asked to somewhat modify the statements made, as they might lead to misinterpretations on the part of a certain portion of the public interested in shipping business at La Plata. The facts are as follows:—Mr. E. T. Puleston has been notified that on 16th June last Her Majesty's Government sanctioned his appointment as Vice-Consul at La Plata, but there is still pending the question of the exequatur. With respect to our indications as to the location of the projected Vice-Consulate, we now understand that it is premature to anticipate anything beyond the fact that once the corresponding exequatur be extended by the Argentine Government, the British Vice-Consulate will be installed in Messrs. Puleston's offices. Messrs. Puleston have, as for many years past, had their head office in the centre of the City of La Plata, and about two years ago opened a branch of their firm in the port at Ensenada, to dedicate special attention to all classes of commission business relating to shipping. This branch office was situated until recently at the "Muelles y Depositos," but has within the last few days been removed to the first floor of the brick building situated between the draw-bridge in Ensenada and the entrance to the Grand Dock.

Rio Segundo Brewery.

Stout and Pale Ale

These beers were reported on by the famous Analyst Dr. Arthur Hill Hassall of London, the greatest authority on the subject in the world, and pronounced to be well brewed beers and free from metallic or other impurities. They are brewed from genuine Malt and Hops, without any admixture of chemicals, and pasteurized to preserve them in good condition for an indefinite period.

On sale at all the principal Restaurants and Confiterias in town.

Delivered at consumers' residences in quantities of 1 dozen and upwards.

Orders promptly attended to by the Sole Consignees
ALLAN RAMSAY & Co.
732-736 Calle San Martin

CHARLES OLMI
A REGAL RESIDENCE
MAGNIFICENT PALACE

15 squares from Plaza Victoria; built with first class materials. 10 rooms, bath rooms, halls, w. c., servants' room.

A most comfortable mansion, healthy, dry and well ventilated.

Trams at the door and corners; gas, pipe water and cloacas.

This Palace has cost a fortune

Also the furniture, which is perhaps one of the best lots of furniture in Buenos Ayres, it was all made to order to match the expensive wall paper and the various styles of rooms of the palatial residence.

The furniture of the drawing-room, dining-room, bedroom, office and hall, are of the very best make. Chandeliers, carpets, bronzes and marbles, all valuable.

This splendid property and all the furniture will be sold privately all in a lot at much under cost price and on most liberal terms, half of the amount agreed cash, and the balance on time, from 1 to 8 years.

To inspect the furniture and palace and further information please apply at my mart

TEA
LA MAGNOLIA
INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

GUARANTEED PURE.

Beware of gross, imitations of this well-known mark. Sold in tins of 1, 3, 6 and 12 lbs.

HORSFORDS
PHOSPHATIC
BAKING POWDER
BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind! It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.
What a wonderful result is this!"

EXTRACT OF TOBACCO.
According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.
Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

ESTANCIA
Rafango Stud
For sale a number of select Stallions 3 and 4 years old, of Shire, Yorkshin, Coaching, Hackney and Irish Hunter blood.
The above lot of horses can be recommended with entire confidence. For colour bone and action they cannot be surpassed to cross with the average mares of the country; to produce a saleable and generally useful horse for this country or for exportation.
The Rafango Stud of Hackney and other blood mares is probably the largest and most select in the Republic.
The Stud can always be seen by appointment. Apply

PLANTAS—Remates todos los Lunes, Miercoles y Viernes en nuestra sucursal Bolivar 161 a las 12 del dia.

Por los mismos
COLOSAL REMATE
DE
TIERRAS
Adaptables para Agricultura.
En la region de los trigos,
Provincia de Santa Fe
Sobre el Ferro-Carril del Rosario a Tucuman.
Linderas a las Estaciones Arruño, Herzilin, Ceres, Selva y Malbran de dicho ferro-carril.
Tierras al alcance del mas pobre labrador.
Divididas en lotes desde 800 hectareas.
Sin Base Ninguna!
y condiciones ventajosas para el pago.
Area a venderse, 233,762 hectareas, o sean 100 leguas kilometricas mas o menos.
Se remataran en la Capital Federal
En nuestra casa Alsina 480 y 482
El Miercoles 10 de Agosto
a las 2 de la tarde
Remataremos por cuenta y orden de una Sociedad y por liquidacion total de la misma, 233,762 hectareas, 66 areas y 39 centiareas ubicades en la Provincia de Santa Fé, donde como todo el mundo sabe, existen las mas vastas y ricas colonias de agricultores de la Republica y cuyos habitantes no conocen la crisis que ha abrumado al resto de ellas, debido a las esplendidas y abundantes cosechas que les han dado estas sin iguales tierras.
La ubicacion de estas queda al Oeste del gran ferro carril que arranca de la capital de la republica y cruza toda la rica y poblada zona de colonias terminando en la ciudad de Tucuman.
Comiénsan las tierras que se ofrecen en venta, en la Estacion Arruño del ferro-carril mencionado y van hasta la Estacion Ceres de la cual distan 2 a 2 1/2 leguas estando el resto de ellas ubicadas sobre la Estacion Malbran extendiendose al Sud Oeste de la misma.
Todas estas tierras estan medidas, y midiendose el resto por el Agrimensor Publico, Señor Eduardo Riquera, y seran entregadas amojonadas a todos y cada uno de los compradores una vez escrituradas.
Copiamos de una carta de dicho Agrimensor, lo pertinente a la fraccion que acaba de medir, que dice:—
"Respecto de la clase de tierra, se puede considerar de tener igual calidad de tierra vejetal de 50 centimetros termino medio de tierra negra, terrenos muy altos, el agua potable obteniendose de 6 a 12 metros. No hay montes espesos, (escepto en algunas las tierras que estan al Norte sobre la Estacion Malbran donde los montes son muy abundantes y en partes impenetrables) sino isletas de arboles v. g. tiandubay, algarrobo, palo amarillo, algarrobo negro, etc. etc.
"El lote 85 es algo bajo terreno inferior.
"Los demas lotes son adecuados para la agricultura y se encuentaan rodeados de colonias es mas pobladas y otras en formacion y cerca a las Estaciones Arruño, Herzilin, Ceres, del gran ferro-carril de B. Aires a Tucuman.
"Las poblaciones que se advierten en el plano son pobladores que tienen animales de cria (vacuno, yeguerizo y ovino) en todas ellas hay jagueles para dar agua a las haciendas.
"La temperatura de esta region es la misma que reina en de donde dista unas 20 leguas."
Creemos que con estos datos nada tenemos que elegar sobre la bondad de estos terrenos que solo necesitan los brazos de hombres para hacerlos producir y con sus frutos sacar en un par de años doble de lo que se ha pagado por ellas.
La Provincia de Santa Fe que hace apenas 15 años, puede decirse, hera casi desierta, hoy es un damero cruzads en todas direcciones por lineas ferreas pobladas por innumerables colonias que robosan de poblacion rica y activa; llenas de molinos a vapor, elevadores de granos, fabricas e industrias sin fin.
Antes del fin de este siglo, la Provincia de Santa Fe enviara al mundo de sus granos de todas clases como lo hacen actualmente los Estados Unidos del Norte.
Creemos inutil insistir en mayores detalles sobre lo que son y seran estas tierras; ahi estan sus hechos que dicen mas de lo que podriamos decir nosotros.
Llamaremos si la atencion de los compradores sobre las condiciones de la venta a saber:—
Sin base ni limitacion alguna por lo que den.
El pago se hara una cuarta parte al contado y el resto a 6, 9 y 12 meses de plazo con pagare hipotecario.
5 o/o al firmar el boleto a cuenta del precio y en caso de no escriturar dentro de los 30 dias de la venta perdera el comprador dicho 5 o/o y quedara resuelto el contrato a opcion de los vendedores quienes podran exijir la escrituracion si asi les conviene.
Planos y pormenores se obtendran en nuestra casa Alsina 480 y 482.

Por los mismos
En la Pampa Central
5000 hectareas de campo en dos lotes, alambrado por 3 costados y ubicado en la Seccion VIII, letra C, mitad del lote 16, lindando con la nueva Capital "Toay". Con 10,000 Cedulas C. Nacionales. ¡Sin base! ¡Sin base! Se rematara el viernes 5 de Agosto a las
